The IRS and EPA: Bureaucrats Out-of-Control

Dear Friend.

This coming Thursday, I am holding a <u>Congressional Field Hearing</u> in Mesa concerning IRS abuse and EPA overreach. It is important, now more than ever, that we hold this intrusive government accountable. I will be joined by fellow Arizona Congressmen Franks, Salmon and Schweikert. Please join us and let us know how you feel about the IRS's illegal targeting of conservative organizations and the EPA's unlawful actions. Click <u>HERE</u> to learn more.

Getting Government Out of the Way of Our Rock Products Producers

On Tuesday, I toured the Arizona Rock Products Association in Phoenix. We discussed regulatory, transportation and land issues. The rock products industry is critical to Arizona's economy; its economic impact is almost \$1.6 billion. Like many industries, however, they are fighting over-regulation and an intrusive federal government. We cannot afford for vital industries like rock products to contract due to government interference. In Washington, I will continue to fight bloated bureaucracy and roll back unnecessary regulation.

What Does the Land Exchange Really Mean?

Please join me on August 20 for a joint town hall with Rep. Ann Kirkpatrick (AZ-01) to discuss legislative efforts to revive the Superior Mine project and

bring thousands of jobs to Arizona's Copper Corridor. Getting the <u>Southeast Arizona Land Exchange and Conservation Act</u>, a critical jobs bill, across the finish line requires Arizonans to rise up and let their voices be heard. Nearly 4,000 jobs and billions of dollars in economic activity are at stake. I invite the public to join us in Superior to let your representatives know that you stand for jobs and economic growth.
